Q# IS there is any difference in outcome related to in hospital vs out hospital cardiac arrest.

Reply: Thanks we added paragraph at the end of discussion titled The outcomes of IHCA and OHCA (2 new references added)

Q # Is there any data on mechanical support vs pressor use in these patients.

Reply: data already in the manuscript with highlights

Q# Providing a figure for the mechanism of PAMD will be helpful to the readers.

Reply: figure 1 added (Mechanism, pathophysiology and outcome of post-cardiac arrest myocardial dysfunction (PAMD) and stony heart)

Thank you
