Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 9707-edited.docx).

Title: Multimodality imaging in apical hypertrophic cardiomyopathy

Author: Rosario Parisi, Francesca Mirabella, Gioel Gabrio Secco and Rossella Fattori

Name of Journal: *World Journal of Cardiology*

ESPS Manuscript NO: 9307

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Thank you for your general favourable comments. Revision has been made according to the suggestions of the reviewer: A table of comparison of the characteristics of methods and image of MDCT are now added in the manuscript. Unfortunately we don't have an original image of SPECT of patients with apical hypertrophic cardiomyopathy in our Institute (hope that is not a major issue for the publication). Figure legends have been improved, rearranged and linked to the body of the text.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Cardiology*.

Sincerely yours,

A handwritten signature in purple ink, appearing to be 'Rossella Fattori'.
