1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) **Reviewer 00060493.** We agree with your comments. We have deleted the sentence "*the patient was referred for consideration of cardiac transplantation*". We have also removed the sentence: "*It is an excellent work. The manuscript is clearly written, well organized, comprehensive and appropriate referenced.*" 3D-chocardiography findings are included in the case (Figure 3). However cardiac-MRI cannot be performed now by the presence of defibrillator. We have improved the images, including labeling and arrows. We have also included scale bar in all figures.
