**Name of Journal:** *World Journal of Cardiology*

**ESPS Manuscript NO:** 27904

**Manuscript Type:** Case Report

Dear Reviewers,

First of all, I would like to extend my sincere thanks for your valuable comments and feedback. I have tried to include all your suggestion in the manuscript revision. I will address each reviewers comments with their number as below:

**Reviewer's code:** 01482015

- The patient was discharged on the subcutaneous low molecular weight heparin as an anticoagulation therapy. He was on cytoreductive therapy with hydroxyurea in the past but could not tolerate the medication, hence was taken off it.
- Sequence of the figures has been revised
- The typing errors have been corrected

**Reviewer's code:** 02602138

- We have added the paragraph about the anticoagulation strategy in the patients with Polycythemia Vera.

**Reviewer's code: 01293596**

- **A follow up CT angiogram showing the resolution of the left pulmonary venous clot has been added.**
- **The discussion has been expanded to include polycythemia vera patient population**
- **All abbreviations have been spelled out.**
- **We will be presenting the figure 4 as a table**

Thank you so much for all your valuable feedback,

Regards,

Bhaskar Bhardwaj, MD
