

## Format for ANSWERING REVIEWERS

May 5, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 17864\_review.doc).

**Title:** The biology of hyaluronan: insights from genetic disorders of hyaluronan metabolism in humans and animal models

**Author:** Barbara Triggs-Raine, Marvin Natowicz

**Name of Journal:** *World Journal of Biological Chemistry*

**ESPS Manuscript NO:** 17864

This version of the manuscript has been revised based on the suggestions of the reviewers and the recommendations for formatting from the editor:

1. Both reviewers suggested that figures would add to the manuscript, and one reviewer specifically suggested the addition of 3 figures. As suggested, three figures have been added. These are now referred to within the text and Figure Legends have been added to the manuscript.
2. The second reviewer suggested that a list of abbreviations be provided. This has now been incorporated on page 2 after the abstract.
3. The formatting of the manuscript has been revised as suggested by the editor to meet the requirements of the *World Journal of Biological Chemistry*.

Sincerely yours,
