

## Specific Comments to Authors-authors reply

1) I would only suggest to the Authors the modification of the title of this review into "Immunotherapy: a new standard in the treatment of metastatic clear cell renal cell carcinoma", as it mostly focuses on this type of renal cell cancer. Thank you for your review, we appreciate your comments. The title is modified according to your suggestion.

The title of the manuscript on the editing certificate is Immunotherapy of renal carcinoma -how to chose the best option? because we sent manuscript for editing earlier.
