

Editor-in-chief

World Journal of Orthopedics

We hereby submit the revised version of the article: "Manuscript NO: 61326: Clinical Outcome After Surgery On Schwannomas In The Extremities".

We have performed a language check as the reviewer requested and since we received now more specific comments from the reviewer, the revision have focused on the issued raised by the science editor. Author Contributions have been added, figures were prepared and arranged using PowerPoint and an article highlights section have been added.

Yours Sincerely

Andreas Saine Granlund
