

Dear Shui Qiu and the editorial team at World Journal of Orthopedics,

Thank you for your prompt and thorough review of our manuscript entitled 'Knee Osteoarthritis: Therapeutic Alternatives in Primary Care' (Manuscript NO.: 28680). We are pleased that you have reached the first decision for publication and that no revisions were requested by the reviewers or editors. We have therefore made no changes to our original manuscript at this time. We have completed all required documents and submitted them accordingly.

Sincerely,

A handwritten signature in black ink, appearing to read 'Nathan Evaniew', with a long horizontal line extending to the right.

Nathan Evaniew MD PhD  
Division of Orthopaedics  
McMaster University
