The manuscript has been improved according to the suggestions of reviewers:

- Reviewer 646460
  1. the 2 abstracts were a mistake, the second one is the "core tip"
  2. schemes from Macdonald et al. were added
  3. the aim of the paper is to make a review on PDT and not to report our personal experience.
  4. Pictures were added
  5. The "Photorejuvenation" paragraph was revised
  6. language was revised
- Reviewer 646464
  1. References were revised
  2. language was revised
  3. references were revised
- Reviewer 557058
  1. the aim of the paper is to summarize the therapy with ALA, that is one of the most frequently used photosensitizer in PDT, especially in Italian experience in outpatients.
  2. language was revised
  3. references were revised
  4. legends were revised
  5. the legend in table 3 was revised adding the significance but it was just reported in the article.
- Reviewer 646537
  1. language was revised
  2. we reported the most frequent used protocols in our personal and in Italian experience. We believe that a more extensive reporting can cause confusion.

Thank you again for publishing our manuscript in the *World Journal of Dermatology*.

Sincerely yours,

Luca Negosanti, MD
