

## RESPONSE LETTER

Name of Journal: *World Journal of Hematology*

ESPS Manuscript NO: 27283

Manuscript Type: Case Report

Title: Successful lower leg microsurgical reconstruction in homozygous sickle cell disease: Case report

Author: Carolina Posso, Francisco Cuéllar-Ambrosi

1. All writing requirements for each part of the paper were corrected according to the Guidelines and Requirements for Manuscript Revision-Case Report.
2. An audio core tip was recorded.
3. The crosscheck by Ithenticate is included and the title of the paper does not match any search in Google scholar.
4. Figures and algorithm are presented as a separate format (Power point) for easier edition.
5. For reviewer 00253956: two editing experts corrected typos and grammatical errors, and Table 1 is presented as a flow chart.
6. For reviewer 03638253:
  - 1) The reference requested was included.
  - 2) The expression Beta Globin Gene was corrected.
  - 3) The reference requested for “ increased erythrocyte sickling...” was included.
  - 4) The reference requested for “ patients with sickle cell trait or disease are usually...” was included.
  - 5) 5. The hemoglobin level was changed to 30% in all sections of the paper.
7. Filopodia publishing was my editing service company; the locked version of the manuscript and their certificate is included.
8. As we declared in the conflict of interest statement, we did not receipt any economical support; the grant application form does not apply.
9. The copyright assignment was signed and scanned.
10. Institutional review board statement and Informed consent statement is included.
