I agree with your suggestions. I have added two tables in the new version of the manuscript and I have added the method used for the review.

Reviewer 02456837:

I agree with your suggestions. I have added two tables and I have made changes in the new version of the manuscript according to your suggestions. However, I am so sorry, but I cannot understand the sentence: "Dystonias Update reference 17 (Toxicon 2013;67:94-114) Spasticity Functional and quality of life outcomes after BoNT are not addressed" because I have carefully checked the manuscript and I have not found this reference associated with the quality of life of the spasticity. Could you clarify me it ?. Thank you. I apologize for this.

Thank you again for publishing our manuscript in the *World Journal of Neurology*

Sincerely yours,

Esteban Peña MD
