Role of minimally invasive surgery in complex adnexal tumours and ovarian cancer

Juan Gilabert-Estelles, Cristina Aghababayan, Paula Garcia, Jesus Moscardo, Susana Royo, Silvana Aniorte, Juan Gilabert-Aguilar

Dear Lian-Sheng Ma,

Please find enclosed the revised version of the manuscript entitled "Update on the role of minimally invasive surgery in staging of ovarian cancer." by Juan Gilabert-Estelles, Cristina Aghababayan, Paula Garcia, Silvana Aniorte, Susana Royo, Jesus Moscardo and Juan Gilabert-Aguilar for consideration for publication in World Journal of Obstetrics and Gynecology.

We thank sincerely the reviewers all their comments that have permitted a better version of the manuscript. We address a new version of the manuscript (clean and reviewed version)

Reviewer 00742250

This review article has a high scientific value and will contribute to the readers in clinical practice. "Operative evaluation of macroscopic characteristics predicting potential of malignancy in adnexal masses" is more appropriate in the title of Table 1. Please revise a style of Ref No. 59.

Thank you very much for your comments,

Table 1 title has been changed as suggested

Reference style has been modified according to the journal standards

Reviewer 730309

There is a little miswriting. If you correct of them there will not be a problem

Thank you very much for your comments.

Miswriting has been corrected in the reviewed version

Looking forward to hearing from you soon,

Yours sincerely,

Juan Gilabert-Estelles, MD, PhD.
