

## ANSWERING REVIEWERS

December 7, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: **ESPS-22427-review.doc**).

**Title:** Multicenter cooperative observational study of idiopathic pulmonary fibrosis with non-small cell lung cancer

**Author:** Noriyuki Ebi, Shoji Tokunaga, Kazunobu Itoh, Isamu Okamoto, Nobutaka Edakuni, Shinji Fujii, Kentaro Watanabe, Shinichiro Hayashi, Takashige Maeyama and Yoichi Nakanishi for the Lung Oncology Group in Kyushu, Japan

**Name of Journal:** *World Journal of Respiriology*

**ESPS Manuscript NO:** 22427

The manuscript has been improved according to the suggestions of reviewers and administrators:

1 Revision has been made according to the suggestions of the reviewers as follows:

1. This is a well performed study on a relevant subject. The presentation is good, the quality of written English as well. The left margins on the title page look odd. This is my only concern. I recommend acceptance as it is. (Reviewer's code: 02494634)

*Response:* As pointed out by the reviewer, the left margins on the title page have been corrected.

2. The manuscript will be improved if the differences between the time-course of idiopathic pulmonary fibrosis and the previous reports about idiopathic interstitial pneumonias are clearly described. (Reviewer's code: 00505755)

*Response:* As suggested by the reviewer, we have added the text in the discussion section of the revised manuscript in order to clarify the difference of the incidence of acute exacerbation between idiopathic pulmonary fibrosis and idiopathic interstitial pneumonias (page 11, line 18-20).
