Title: The potential of metastin and metastin receptor as biomarkers for urological cancers. A review of the literature

Author: Sunao Shoji, Haruhiro Sato, Tetsuro Tomonaga, Hakushi Kim, Shuichi Soeda, Mayura Nakano, Toyooki Uchida, Toshiro Terachi, Koichi Takeya

Name of Journal: *World Journal of clinical Urology*

ESPS Manuscript NO: 3225

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated.

2 Revision has been made according to the suggestions of the reviewer.

Thank you very much for the comments of reviewer 00505624 and 00469307.

The reviewer 00505633 pointed out that the citation of other reviews does not substitute for the lack of original data and the paper should be rewritten as a review. Therefore, we checked our review article again. However, the contents of our review article are accurately described, and we think our review article is suitable to submit to "World Journal of Clinical Urology". Thus, we did not rewrite our review.

3 References and typesetting were corrected.

4 We attached the certification of native English editing. However, please pay attention that I modified the title name of the review article.

Thank you again for publishing our manuscript in the *World Journal of clinical Urology*.

Sincerely yours,

Sunao Shoji, MD, PhD
