1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) References. Out of 17 references only 6 are before year 2000 and are included because its important and similar working plan as our paper.

(2) English modifications have been made IN order to avoid word-by-word translation from Spanish.

(3) As proposed, the sentence "Anyway, there are unsatisfied patients with surgery ,...." has been modified. It is true that it could be misunderstood. What I mean is that, besides high satisfaction rates, there are some patiens that are not that satisfied and it is because the reasons I mention. The new modified sentence is: "On the other hand, there is a small number of unsatisfied patients with surgery, esthetic and/or functional results. When perceived, it is about rigidity, length, infection of the device, spontaneous deflation or mechanical failure the main reasons for those cases of patient dissatisfaction."

3 References and typesetting were corrected
