

April 22, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 10086-edited.docx).

**Title:** Kidney stones over 2 cm in diameter - between guidelines and individual approach

**Author:** Bryniarski Piotr, Miernik Arkadiusz, Schoenthaler Martin, Zyczkowski Marcin, Taborowski Piotr, Paradysz Andrzej

**Name of Journal:** *World Journal of Clinical Urology*

**ESPS Manuscript NO:** 10086

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) The manuscript should be polished for reading. 2. Hope to see you more and better research.

**Manuscript was polished for reading**

(2) In the introduction section, it would be necessary to mention the aim and objectives of the paper.

**According to reviewer's advice we added the aim of the study**

(3) A method section stating literature search strategy would be appropriate

**According to reviewer's advice we added search strategy**

(4) Addition of a logical conclusion would impart the paper a better finish rather than an abrupt ending.

**In our opinion the last chapter (6 - Which technique should be chosen for kidney stones over 2 cm?) is the summary of the review and makes the good conclusion of the review. The addition of table 1 illustrates this summary and serves as a practical guideline for readers.**

(5) The Table-1 needs to be references as the source remains unidentified.

**References were added according to reviewer's request**

(6) The style of the references need attention. The dates of publication in several references are either in the middle or at the end. The references citing "websites" should have last accessed date mentioned.

**We corrected the references according to editor's advice.**

3 References and typesetting were corrected

4 All changes were bolded in the text. Reference 31 was by mistake duplicated and in review form was corrected. Reference 55 was exchanged as it was only the abstract from poster presentation. Small syntax errors were corrected.

Thank you again for considering our paper in World Journal of Clinical Urology.

Yours sincerely,

Piotr Bryniarski
