

Dear Reviewers,

Thank you very much for your relevant comments. Below we gave responses point-by-point to each of the issues raised in the peer review:

Reviewer 1:

English was polished by a native English-speaking expert

Reviewer 2:

1-English was polished by a native English-speaking expert

2-Typing errors were verified

3-Results in tabular format were added

4-Information about seizure phenomenology and electroencephalogram data were lacking in literature

5-Advanced treatment are still used for clinical trial and not yet available in Tunisia
