

Response to the Reviewers

Reviewer 1

All errors (with the exception of gratuitous comments) were corrected (marked in red)

Reviewer 2

We do not think that PMID 21527528 which is “Identification of the sAPRIL Binding Peptide and Its Growth Inhibition Effects in the Colorectal Cancer Cells” has much relevance to our review

Reviewer 3

As requested Conclusions part was expanded (marked in red)

Reviewer 4

As requested we added consequences and clinical fallouts to each subchapters. We also added info and relevant references about eosinophil extracellular traps and intercellular communication through microparticles (all marked in red)

- Postal codes have been added
- References were placed I square brackets in superscript
- Conflict of interest was attached to the submission as signed pdf
- DOI and PMID were added to the references
