

Dear colleagues,

I am pleased to submit the revised version of the manuscript entitled **Correction to “Performance of a serological IgM and IgG qualitative test for COVID-19 diagnosis: An experimental study in Brazil”** (Manuscript NO.: 83127, Correction) for consideration for publication in the *World Journal of Experimental Medicine*. Please allow me to express my sincere gratitude for your valuable and pertinent suggestions. We resolved all issues in the manuscript based on the peer review report and here we make a point-by-point response to each of the issues raised in the peer review report.

- 1. Reviewer #1 - Specific Comments to Authors:** Any experimental research for the diagnosis and treatment of COVID-19 should be supported.

Reply:

Dear reviewer #1,

Thank you for the great evaluation of our manuscript and your valuable and helpful comments.

- 2. Reviewer #2 - Specific Comments to Authors:** Article is already published, only there is a minor correction in the acknowledgment section. Editorial Office may add this correction to the acknowledgment section.
