Dear Editor,

Please find attached the revised manuscript in Word format (file name: 4891-review.doc).

Title: Neurotrophic and metabotropic potential of NGF and BDNF: linking cardiometabolic and neuropsychiatric diseases

Author: Stanislav Yanev, Luigi Aloe, Marco Fiore, and George N. Chaldakov

Name of Journal: *World Journal of Pharmacology*

ESPS Manuscript NO: 4891

The manuscript has been improved according to the suggestions of Reviewer-1 and the Editor:

1 Language polishing was made by a native English colleague-friend.

2 Revision has been made according to the suggestions of the Reviewer-1

We appreciate Reviewer's comment and evaluation of our manuscript (MS) entitled „Neurotrophic and metabotropic potential of NGF and BDNF: linking cardiometabolic and neuropsychiatric diseases“. We will keep in mind the suggested references. However, we did not include them in the revised MS, because were advised by the Editor to “dramatically” decrease the number of our References. We followed that and in the revised MS deleted almost one third (n = 50) of the References. Accordingly, wrote in our Acknowledgments that “We apologize to the authors of many relevant articles that were not quoted here for reasons of brevity.”

Thank you again for the acceptance of our MS for publication in the *World Journal of Pharmacology*.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'George Chaldakov'.
