#### **Comments and responses**

##### **Reviewer #1:**

the overall content of the article is less, and a native English speaker is very needed for language correction.

Response: Thanks for your comments. We had polished our article.

##### **Reviewer #2:**

1. The author explores the risk factors for cognitive dysfunction in CKD patients, and should also demonstrate the relevant indicators of kidney disease in patients, and increase the discussion of the cognitive impact of kidney disease itself.

Response: Thanks for your comments. we had added the discussion of the cognitive impact of kidney disease itself.

2.  $P < 0.05$  was considered statistically significant. There was an error in the statistical analysis.

Response: Thanks for your comments. we had corrected the error in the statistical analysis.
