

Manuscript Title: Voriconazole-induced Periostitis

Manuscript No: 66854

Invited Manuscript ID: (05205109)

World Journal of Transplantation

Dear Editor-in-Chief,

Thank you for your comments and suggestions on our work titled “Voriconazole-induced Periostitis” (manuscript number: 66854) in *World Journal of Transplantation*. We noted the reviewer’s suggestion to add drug-drug interaction between voriconazole/itraconazole and tacrolimus. The scope of the paper is to focus on one particular side-effect of voriconazole, namely periostitis. Adding the drug-drug interaction section may deviate from the main objective of the paper and likely cause confusion to the readers. Hence, we have decided to not incorporate that in the manuscript.

We hope you will agree with the decision.

Thank you.

Sincerely,

Anthony Guarascio

Nitin Bhanot
