Dear Professor Papalois,

We would like to thank the reviewers for their valuable time and comments.

In response to these comments:

Reviewer #1

We would like to thank the reviewer for his valuable comments. We have made changes accordingly as far as the addition of the ORCID number, an abstract, core tip and changes in the text. However, we have not expanded the paper as a full editorial because this is not meant to be an full editorial, but rather a short “preface/introduction” for the Special Issue **“Translational Research and Innovation and the current status of Transplantation in Greece”** to the **World Journal of Transplantation**.

Reviewer #2

We would like to thank the reviewer for the valuable comments and we are appreciative.

Sincerely,

Georgios Tsoulfas, MD, PhD, FICS, FACS

Professor of Transplantation Surgery

Chief, Department of Transplant Surgery
