

## **Answer to Reviewers**

### **Answer to Reviewer 1:**

**Comment:** Introduction paragraph proposed to be deleted

**Reply:** The asked paragraph has been deleted.

**Comment:** It is best to select the literature that has been in the past 3-5 years.

**Reply:** about 95% our references and literature are from past 2-4 years and highly validated.

**Comment:** If your organization has research in this field suggest to add to the article.

**Reply:** This is a unique article because we are taking different diseases and wanting to know the role of different regimens in those different diseases.

**Comment:** There is too much content I suggest deleting it.

**Reply:** The content with unnecessary information has been removed and article has been concise as asked.

Thank you for your consideration of this manuscript.

Sincerely,

Shahzaib Maqbool
