The manuscript has been improved according to the suggestions of reviewers:

Page 4. The sentence has been replaced according to the reviewer's suggestion.

Page 5. The sentence has been removed.

Page 6. This part was reorganized: first it discuss on IL-10/Cystatin C axis and after that about IL-10/TGF- β interactions.

Page 8. This sentence has been excluded. Previous sentence explains much clear the role of high IL-10 expression in graft rejection and its association with interstitial fibrosis and tubular atrophy.

Page 9. This paragraph has been limited and reorganizes.

Page 9. This part has been reorganized, and the issue was clarified.
