<b>Reviewer's comments</b>	<b>Authors reply</b>	<b>Changes made</b>
The fundamental role of endothelial dysfunction in the systemic manifestations of COVID-19 should be better discussed	Necessary text added	Changes made in the pathogenesis section and appropriate references added
More than 200 suggestions regarding English language. If making some changes in this direction, the article is adequately improved for publication in my opinion.	Thank you for bringing it to our notice. We have made several changes as suggested by Grammarly. However, many suggestions are for medical words which sometimes it does not understand.	Necessary changes made through-out the manuscript.
