

## Format for ANSWERING REVIEWERS

January 14, 2015

Dear Editor,

Please find enclosed the revised version of the manuscript in Word format (file name: 15114\_review.doc).

**Title:** Key role of human leukocyte antigen in modulating HIV progression: an overview of the possible applications.

**Author:** Alba Grifoni, Carla Montesano, Vittorio Colizzi, Massimo Amicosante

**Name of Journal:** *World Journal of Virology*

**ESPS Manuscript NO:** 15114

The manuscript has been improved according to the Editor and Reviewers' suggestions:  
1 Format has been updated in agreement with the "Format of Minireview" as for Editor request.

2 Revision has been made as for the suggestions of the Reviewers

(1) The entire manuscript has been extensively modified and edited to improve the English. The grammar errors indicated by the Reviewers have been corrected and highlighted in the revised version of the manuscript.

(2) Abbreviations such as HLA or TCR have been written in extenso the first time that are used in the manuscript and therefore highlighted.

(3) Improper terminology which has been pointed out by the Reviewers has been corrected and highlighted in the revised version of the manuscript.

3 References and typesetting were corrected using the preformed style of World of Journal of Gastroenterology available for Endnote program.

4 The manuscript has been extensively edited for the English language and forms by a native English speaker. Therefore, the manuscript has reached a linguistic Grade A without the need of further editing service.

Thank you again for considering our manuscript for publication in the *World Journal of Virology*.

Yours faithfully,

Massimo Amicosante PhD, Department of Biomedicine and Prevention
