

Dear reviewers,

I would like to thank you for your comments.

All your comments were corrected. The corrections are with red in the text.

Reviewer 2 had no comments.

Reviewer 1 had the following comments:

1. Show clearly how the therapeutic outcomes will be measured or assessed. Done – please see corrections in the first paragraph in red
2. Explain how LET related pain levels will be assessed. Done – please see corrections in the first paragraph in red
3. Formulate a scientific protocol to perform the evaluation of the proposed therapy as an alternative approach. Done - please see corrections in the paragraph about proper protocol

In other words, the authors could suggest a cost-effectiveness analysis, if no randomized trial will be possible in this study. Done – please see corrections in the last sentence of the article.

Best regards

Dr. Dimitrios Stasinopoulos
