Greetings Dr. Linsey, hope this email finds you well.

I am a medical student based in Iran writing a narrative review manuscript on "AI application on Trauma Orthopedics" and since I was fond of your work regarding " Assessment of a deep-learning system on fracture detection" I was wondering if I could use one of your figures with proper citation and under current copyrighting laws. To be more exact; figure number 1 " The deep-learning system".

It would be great to hear from you

Sincerely

Seyedarad Mosalamiaghili

Yes, you can use the figure.

Best of luck with your studies!
