<input type="checkbox"/> Grade E: Poor	<input type="checkbox"/> Grade D: Rejected	<input type="checkbox"/> Rejection

JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

In this review, authors introduced some herbal medicines that have been proved to be effective in preventing or treating NAFLD. TCM are rich sources of biologically active substances and some active substances have been used as the effective methods against NAFLD. Although the relevant clinical studies are limited, we believe that TCM will certainly play a remarkable role in the future to treat NAFLD. The manuscript is well-written and the comments has been settled properly. We believe that it is worthwhile to publish in World Journal of Gastroenterology
