<input type="checkbox"/> Grade C: Good	<input type="checkbox"/> Grade C: A great deal of language polishing	<input type="checkbox"/> Rejection
<input type="checkbox"/> Grade D: Fair		<input type="checkbox"/> Minor revision
<input type="checkbox"/> Grade E: Poor	<input type="checkbox"/> Grade D: Rejected	<input type="checkbox"/> Major revision

JOURNAL EDITORIAL BOARD COMMENTS TO AUTHORS

The manuscript is undoubtedly of high quality, but minor corrections are required: outdated taxon names should be replaced with new ones (or both names should be indicated: new and old). For example, instead of Actinobacteria, Firmicutes, and Bacteroidetes, Actinomycetota, Bacillota, and Bacteroidetes should be used, or Actinomycetota (also known as Actinobacteria), Bacillota (Firmicutes), and Bacteroidota (Bacteroidetes) (Oren A., Garrity G.M., 2021). Not only all phyla but also outdated names of other taxa should be corrected, for example, Eubacteriales (formerly known as Clostridiales), Oscillospiraceae (Ruminococcaceae), Phocaecicola vulgatus (Bacteroides vulgatus), etc. In the statement "In adult population men and women maintain the different amount of gut microbiota phyla (Firmicutes, Verrucomicrobia, Bacteroidetes, Prevotella, Fusobacteria, and Actinobacteria)", in addition to the outdated names of phyla, there is an error: Prevotella is a genus, not a phylum. The erroneous names Lachnospiraceae and Bacteriodes should be corrected to Lachnospiraceae and Bacteroides respectively. The erroneous term "ratio Escherichia/Shigella" (since it is not a ratio but a taxon name) should be corrected to "Escherichia/Shigella" or

"Escherichia-Shigella". Also some errors in English, such as "recogenization", should be corrected. In Table 1, the appropriate references are desired.
