JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

The endoscopic procedure of EUS guided ethanol ablation is minimally invasive therapy, this method will be one of the options of treatment to the pancreatic NETs for the patients who refuse operation or are not indication of surgical treatment. This case report is interesting and it is an educational case. It is useful for readers in World Journal of Gastrointestinal Endoscopy to understand of this method. This case report should accept in World Journal of Gastrointestinal Endoscopy.
