JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

This is a valuable article of case study of splenic rupture after following enteroscopy. When performing enteroscopy, for endoscopists, it is necessary to pay attention to the rare but severe complications such as this case. The ‘polipectomy’ in the line 10, page4 has to correct the ‘polypectomy’ . This article should accept after minor revision in World Journal of Gastrointestinal Endoscopy.
