<input type="checkbox"/> Grade E: Poor		<input type="checkbox"/> Major revision

### **JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS**

This case report has been proved low-dose antidepressant can be one option for relieving the chest pain and dysphagia with esophageal hypercontractility, such as Jackhammer esophagus. The long term follow up is necessary to reveal the efficacy of this drug, however it is attractive report for the patients with resistant symptoms. This case report should be accepted in World Journal of Gastrointestinal Endoscopy.
