**JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS**

The presented review article “Interferon-free regimens in patients with hepatitis C infection and renal dysfunction or kidney transplantation” by Dr. Cholongitas and colleagues is of high interest for the readers of WJH. The article is well written and performed and concise in its content. The authors successfully implemented the main criticisms and comments raised by the reviewers in the revised version of the manuscript. The language meets the requirements for publication. I consider accepting the revised manuscript for publication in World Journal of Hepatology as it is.
