JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

Peritoneal metastasis still represents a major problem in the surgical treatment of gastric cancer. Conventional adjuvant and radiotherapy have failed in solving this problem to date. In this interesting paper the authors discuss about the efficacy of available treatment of peritoneal the results of the comprehensive treatment for PM from gastric cancer, and verifies the effects of CRS and POC, including neoadjuvant chemotherapy (NAC) and hyperthermic intraoperative intraperitoneal chemotherapy (HIPEC).
