

## ESPS JOURNAL EDITOR-IN-CHIEF'S REVIEW REPORT

**Name of journal:** World Journal of Virology

**ESPS manuscript NO:** 32005

**Title:** Structural and nucleic acid binding properties of hepatitis delta virus small antigen

**Journal Editor-in-Chief (Associate Editor):** Chun-Jung Chen

**Country:** Taiwan

**Editorial Director:** Xiu-Xia Song

**Date sent for review:** 2017-02-20 16:02

**Date reviewed:** 2017-02-21 20:35

### JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

HDV is an interesting agent of infection. The only small and large form of delta antigens possess several biological activities. Thus, a better understanding of their structural and nucleic acid binding activity will boost molecular basis of HDV biology. This version of manuscript had been improved by addressing reviewers' concerns.
