### JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

I agree with the reviewers' recommendation of its acceptance for publication and would like to suggest the following minor modifications. 1) In Introduction section, it should be "Human erythrocytes or red blood cells (RBCs)" to provide the full spelling of the abbreviation of RBCs. 2) It would be more attractive if the author could provide a colorful schematic drawing for illustrating the involved oxidative stress molecular signaling pathways and the locations that are exploitable for biomarker expression.
