Dear Editor:

This is to demonstrate that the written English of the manuscript entitled “CCNO mutation as a cause of primary ciliary dyskinesia: a case report and review of literature” has been revised and polished by Clear Med-Trans Studio which has an expertise team led by English language experts both domestic and abroad. By far we have helped numerous writers to publish their papers. Articles listed below are some work we have done.

Should you have any questions, please contact us via email. Thanks for your kindness.

Sincerely yours

Sherry
