To Whom it May Concern:

I am a native English speaker (born in Buffalo, N.Y. on 01/26/1962) and have been a freelance copy editor of scientific research papers for over twenty years.

I here declare that I copy edited the manuscript *Atypical cutaneous lesions in advanced-stage Hodgkin's lymphoma*, authors Fulvio Massaro, Angela Ferrari, Enrico Zendri, Magda Zanelli, Francesco Merli, currently under consideration for publication in *World Journal of Clinical Cases*.

Upon request, I will be happy to provide my résumé and a list of the scientific papers I have copy edited for Italian researchers just in the last three years.
