Dear Professors and Editors,

We strongly believe that our revised report by **Sarah Georgiadou, Nikolaos K Gatselis, Aggelos Stefanos, Kalliopi Zachou, Konstantinos Makaritsis, Eirini I Rigopoulou, George N Dalekos** entitled “**Efficient management of secondary haemophagocytic lymphohistiocytosis with intravenous steroids and  $\gamma$ -immunoglobulin infusions**”, has indeed now reached Grade A of English language after the careful and extensive revision throughout the text as it has been done also **in more than 230 international publications of my group!** Therefore, we do not think that an English language certificate should be obligatory for well renowned groups.

Best wishes  
Sincerely yours,

George N. Dalekos, MD, PhD
