Certificate of Editing

Dear Editor,

This letter confirms that the manuscript detailed below was edited by the native English-speaking editing staff at Transystem. A copy of the edited manuscript is available for the journal or publisher upon request. To validate this certificate, please contact us at info@transystem.com and provide the validation code provided below.

Should you have any questions or concerns, please feel free to contact us.

Kind regards,

Editing Staff

Transystem Editing and Translation Services

Manuscript Title: Epiphyseal distraction and hybrid reconstruction using PMMA construct combined with free non-vascularized fibular graft in pediatric patients with osteosarcoma around the knee: A case report and literature review

Manuscript Authors: Jun Wan, Yin-hua Liang, Hong-bo He, Yu-peng Liu, Can Zhang

Validation Code: 400.20180906

Transystem makes no claim as to the accuracy of the scientific content of the edited manuscript. The authors can choose to accept or reject suggestions and changes to the document after our editing process is completed and prior to submission to any journal. Thus, this validation allows the editor to identify changes introduced to the manuscript after editing.

Transystem provides editing service for Chinese researchers who wish to publish their manuscripts in international journals. The editing service is provided by experienced native English-speaking editors with expertise in specific areas of research, as well as translation staff who are native Chinese speakers with good command of English and will help these editors communicate with authors to better understand their manuscripts.
