

## Language Certificate

**Name of Journal:** World Journal of Gastroenterology

**ESPS Manuscript NO.:** 27627

**Title:** Uncovering the uncertainty: risk factors and clinical relevance of P1 lesions on small bowel capsule endoscopy of anemic patients

**Authors list:** Tiago Cúrdia Gonçalves, Mara Barbosa, Bruno Rosa, Maria João Moreira, José Cotter

**Correspondence to:** Tiago Cúrdia Gonçalves, MD

The English editing of this study was performed by the author Tiago Cúrdia Gonçalves. This author has had experience in publishing scientific manuscripts, and is a proficient user of the English language (Certificate in Advanced English by the University of Cambridge - England). Moreover, the paper has been carefully read by Professor José Cotter who is the director of our research center and by Bruno Rosa who is co-author of some recent guidelines from well recognized scientific societies, namely European Society of Gastrointestinal Endoscopy (ESGE), and European Crohn's and Colitis Organization (ECCO). In addition, one of the reviewers has also classified the paper to Grade A in its original version. Consequently, we are confident that the language in the manuscript has reached grade A.

Sincerely yours,

Tiago Cúrdia Gonçalves
