**Confirmation of professional scientific editing by native English speaker  
26 August 2016**

To whom it may concern:

This letter is to confirm that I have personally edited the scientific article entitled "Contrast-enhanced ultrasonography in the evaluation of incidental focal liver lesions: A cost-effectiveness analysis" by Miriama Smajerova, et al. I am a professional editor with more than 30 years of relevant experience. I have standardized the language of the article to UK (Oxford) English usage. The paper was returned to me on this day to finalize a couple of very small details and for a final view before resubmission. I believe the paper is sound in all editorial aspects. I should note that I was not asked to edit or to check the references. In my work, I did not detect any unresolved problems relating to the references.

Should you have any questions regarding the editorial work on this paper, please feel free to contact me.

Best regards,

Gale A. Kirking
