

To whom it may concern,

This letter is to state that the revised manuscript (manuscript type: evidence review) submitted to the *World Journal of Gastroenterology* with the title "**May ChatGPT be a tool producing medical information for common inflammatory bowel disease patients' questions? An evidence-controlled analysis**" and authors "Antonietta Gerarda Gravina, Raffaele Pellegrino, Marina Cipullo, Giovanna Palladino, Giuseppe Imperio, Andrea Ventura, Salvatore Auletta, Paola Ciamarra, and Alessandro Federico" was reviewed by Dr Raffaele Pellegrino, MD, holding English level 3 proficiency of the Common European Framework of Reference.

This revision determined the basic language editing, including correcting grammar, punctuation, and syntax, performed normatively with the best efforts.

Kind regards,

Naples, 3 December 2023

Dr **Raffaele Pellegrino**, MD
University of Campania "Luigi Vanvitelli"
Hepatogastroenterology Division
Department of Precision Medicine

A handwritten signature in black ink, appearing to read 'R. Pellegrino', with a long horizontal flourish extending to the right.
