

### Non-Native Speakers of English Editing Certificate

*This is to certify that the manuscript titled "Prediction, prevention, and management of gastroesophageal reflux after per-oral endoscopic myotomy: An Update" has been thoroughly reviewed and edited by a native English speaker. The document has undergone comprehensive language editing to ensure clarity, grammatical accuracy, and adherence to academic standards of English language usage.*

*The editor, “ **Sheldon Vogt**” a native English speaker from Medical University of the Americas, has made significant contributions to the manuscript in terms of language use, style, spelling, grammar, and punctuation. The modifications made to the manuscript have enhanced its readability and overall quality, making it suitable for submission to academic journals, presentations, or other professional platforms. This certificate serves as an assurance that the manuscript is linguistically*

proficient and adheres to the high standards expected of scholarly communication in English.

Name of the Editor: Sheldon Vogt

Date of Editing Completion: 24<sup>th</sup> Jan, 2024

Manuscript ID : 90820
