The manuscript titled "Biochemical composition of the glomerular extracellular matrix in patients with diabetic kidney disease" was read again carefully by the corresponding author, M. Adeva-Andany MD, PhD. Dr. Adeva has carried out extensive post-graduated medical education in several centers of the US, including Jean Mayer USDA Human Nutrition Research Center on Aging, Tufts University (Boston, MA), Hennepin County Medical Center, (Minneapolis, MN) and Mayo Clinic (Rochester, MN), where she has obtained the Certificate in Medical Research. Dr. Adeva has written and published several original scientific articles, reviews and book chapters in English language. In addition, the revision of the manuscript has been submitted to a native English speaking person for further editing.

M. Adeva-Andany, MD, PhD
