

**Language statement of manuscript entitled**  
**Hyperglycemia and reduced adiposity of streptozotocin-induced diabetic mice are not alleviated by oral benzylamine supplementation**  
**submitted to Word Journal of Diabetes**

Dear members of the Editorial board of WJD at BPG,  
As equivalent to an editing certificate for the enclosed manuscript, all co-authors can attest that the manuscript has been scrutinised by a colleague who spent six years at the Univ. of California - Los Angeles (UCLA). Although not native English speaker, this colleague has the required grasp of knowledge for extensive language editing, as well as many other co-authors, who worked on the draft and who already wrote more than one hundred scientific reports.

On behalf of all co-authors,  
Christian Carpéné
