

Dear Editor,

This is to certify that the manuscript entitled “Molecular Determinants of Response to 5-Fluorouracil-Based Chemotherapy in Colorectal Cancer: The undisputable role of miRNAs” is edited and proofread during the second round of reading to eliminate any possible errors in language, punctuations, spelling and style of writing. I am a full time faculty member of Payame Noor University of Hormozgan, Iran and hold a Ph.D degree in English literature.

Dr. Ali Khoshnood

Assistant Professor of English language and literature

Head of English Department
