Title: Anti-osteoarthritis effect of a combinational treatment with human adipose tissue-derived mesenchymal stem cells and thrombospondin 2 in rabbits

Dear Editor,

I have carefully read the manuscript (Manuscript #46573), co-authored by Shin K et al., and corrected grammatical and typographical errors. To my knowledge, the manuscript is sound and well written enough for a review process.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Seung U Kim' in a cursive style.
